

Stealth BioTherapeutics, Inc. is an innovative biopharmaceutical company committed to bringing patients mitochondria targeted therapies to treat both common and rare diseases. Driven by a desire to help patients with unmet medical needs, our team collaborates with well-recognized institutions, physicians, and scientists to develop the next generation of therapies focusing on mitochondria dysfunction in many diseases.

Position Title: Senior Accountant

Position Summary:

We are seeking a Senior Accountant to join our growing commercial biotech finance team. This role will be a significant contributor to the month-end close process working with a high degree of autonomy under the guidance of the Controller while collaborating closely with a Staff Accountant on AP and PO processes. This position will report to the Controller. This is a great opportunity for someone with a strong public accounting foundation who is looking to deepen their industry experience and grow into a role with increasing scope.

Responsibilities:

- Play a significant role in the month-end close process, with minimal supervision, including preparation and review of journal entries, account reconciliations, and supporting schedules
- Prepare and review accrual journal entries, including clinical trial/R&D accruals
- Assist in preparation of monthly financial statements
- Work closely with the Staff Accountant to ensure the AP and PO process runs smoothly and accurately
- Support SOX readiness compliance, including documentation, testing coordination, and control execution
- Apply and build on a foundational understanding of more advanced/technical accounting topics (e.g., revenue recognition, leases, stock comp) as needed
- Contribute to inventory accounting and revenue Gross-to-Net (GTN) analysis, where applicable
- Partner cross-functionally with FP&A, Clinical Operations, and other departments to ensure accurate and timely accounting
- Assist with external audit requests and schedules
- Identify and help implement process improvements as the company scales

Competencies:

- Excellent written and oral communication skills, with the ability to communicate complex information in a virtual environment
- Strong organizational skills with the ability to effectively multi-task and prioritize
- Ability to flexibly adapt to changing business needs and meet timelines
- Ability to prioritize and drive open items to completion
- Strong attention to detail and good problem-solving skills

Requirements:

- Bachelor's degree in Accounting, Finance, or related field
- Minimum 2 years of public accounting experience (audit or assurance) required
- Strong foundational accounting knowledge (US GAAP); working knowledge of clinical accrual accounting a plus
- Experience with SOX and internal control environments
- Advanced Excel skills (or equivalent);
- Experience with NetSuite a plus
- Experience with Concur a plus
- Biotech/pharma or life sciences industry experience a plus
- Excellent communication and organizational skills; comfortable working independently
- Self-starter with a collaborative, team-oriented mindset
